er only, without relative humidity control.

Walk-in Climatic Chambers

- Temperature and relative humidity controlled environment
 Stress tests
- Stability testing
- · Maintaining superior temperature & Rh stability Sample conditioning prior to other tests
- · Wind simulation (optional)
- · Radiation simulation (optional)

Rain simulation (optional)

Accelerated ageing

Industrial Freeze Dryers

Refined solution for rapid, repeatable small or industrial scale freeze drying.

- Dairy products (milk, starter cultures, yoghurts, probiotics, ice-cream,...)
 Vegetables & fruits (strawberries, figs, beans,...)
- Fish & meat
- Floral

Ice condenser capacity: 300 kg Ice condenser temperature: -50 °C Total trays capacity: 19.5 m^2

Industrial Scale Freeze Dryer Model: LIO-300 FP

- Shelf surface capacity: **3 trolleys, each with 25 trays**

Pass Box

Pass-Through Chamber. Material Transfer Hatch.

- Stainless steel interior & exterior housing with mirror polish finish
- Large radius corners making it perfectly cleanable & sealable
- Single-handed operation
- Power supply free innovative reliable
 - interlock (mechanical)
- Installation parts included as standard
- Variety of accessories and dimensions
- Tempered 12 mm full glass door
- More than 500 installations worldwide

- PLC based controller with LED semaphore. Two line LCD display on both sides. Variety of options.
 DOP test connection (optional).
- (3) Hepa filter H14 optional. Air shower (optional).
- (4) Differential pressure manometer (Filter saturation).
- 5 Stainless steel construction AISI 304 or AISI 316 (optional).
- (6) UV sterilization (optional).
- Covering frame for both sides.
- (8) Mechanical or electromechanical interlock with key lockable handle.
- (9) Height adjustable supporting leg or wall console.
- (10) H_2O_2 connectors (optional).
- (11) Shelves or tailored racks (optional).
- (12) Soft profile silicon seal.
- (13) Perfectly round corners ensuring simple and effective easy cleaning.
- (14) Fully tempered glass door for ultimate visibility, UV protection (optional).
- (15) Flat floor design for simple trolley push through (optional).

Vacuum Modified Atmosphere **Packing Systems**

- · Packaging in oxygen free atmosphere · Oxygen atmosphere analysis for each cycle/
- Isolation of container
- Capacity range from 0,7 m³ up to 8 m³
- · Packaging in ALU PVC bags
- Clean room installation

Internal dimensions: 1400 x 2000 x 1350 mm (WxHxD) Volume: 3.7 m³ Parts in contact with product: AISI 316 Automation: Siemens Vacuum pump capacity: 500 m³/h Ultimate oxygen concentration: Lower than 0.2 % O₂ Bag sealer Welding sides: 2 Welding stripes length: 1200 mm No. of parallel welds: 2

10

packet

Parts in contact with product: AISI 316

Vacuum pump capacity: 500 m³/h

Clean and dry: CIP

Container Vacuum modified Atmosphere packing system Model: **VKN-8000**

- Interior dimensions: 1800 x 2700 x 1700 mm (WxHxD)
 - Volume: 8 m³
 - Automatization: Siemens
- Ultimate oxygen concentration: Lower than 0,2 % O2
 - Container sizes: 400 L, 500 L, 800 L, 2400 L

Tailored Equipment

Lab Coil Coating Curing Oven Model: LSP-140 C

Designed to assist in industrial processes of COIL COATING and HOT AIR CYCLE in lab environment

Constant fresh air supply in safety function •

Door latch with an auto open feature in case of overpressure in chamber .

> --2- 22

1 0

...

Kambu

-

- Single-handed operation door
- Rotating pin point shelf in chamber
- Extra-large digital countdown timer display •
- Superior heat insulated doors and housing

HS-10 DVP

0

Recirculating Cooling & Heating System Chiller / Process Thermostat Model: HS-10 DVP

- Huge cooling capacity over full temperature range Rapid temperature change due to optimized fluid capacity
 - Water cooled single compressor cooling system
 - Large capacity circulation pump

•

۰

•

0

- Fully stainless steel enclosure
- Advanced fully programmable controller
- Respectable heating capacity
- Cooling capacity even at high temperatures

Tailored Equipment

Ultra-Fast Temperature Chamber for Field Use Model: TK-1000 CKLTUF

- Temperature range extended from -50 °C... +180 °C .
- Fast cool down rate 6°C/min (EN 60068-3-5)
- Air-cooled single-stage refrigeration system designed for . tropical environment
- Single wing door for maximum accessibility •
- Fully programmable user-friendly controller •

-

24

Enveloped in heavy duty container for safe transportation and field use •

e

- compressed air
- No air contamination through heating process • (no filters required)
- All contact surfaces AISI 316 L •
- •
- •
- Exterior body AISI 304 •
- Max air flow: 1200 L/min •

Pharma Compressed Air Heating System Model: GKZ-02

• Designed for clean heating of pharmaceutical grade

- Designed to be used in a clean room environment

GKZ-02

- All contact surfaces polished to Ra < 0.5 μm
- Compact mobile design
